

Michael Cavanagh (CV Summary)

Information Technology

Education

1998	Advanced Diploma of Engineering Computer Systems South Bank Institute of TAFE (Queensland, Australia)
2001	Microsoft Certified Systems Engineer (Windows NT)
2002	Acer Certified Technician (Desktop, Server, Laptop)
2004	Microsoft Certified Systems Engineer (Windows 2000)

Employment (Brief Summary)

1998 – 2001	<i>BES IT Systems (Queensland, Australia)</i> I held various roles at this company, starting with desktop support ending in Network Support, Installation and Training, I specialized in server network support for medium to large networks and trained new system administrators how to operate and manage the new networks that I installed. I was self managed but reported back to the company two to three times a week.
2004- 2005	<i>Qtech Business Systems (Queensland, Australia)</i> I worked as a PC Consultant for this company for just over a year, my role at here was to maintain and support our contract holder's networks which ranged in basic desktop support to complex server upgrades. I was on 24hr emergency response in this position to ensure our contracts were up and running at all times.
2005-2007	<i>Other (Various)</i> I have worked numerous contracts in various positions ranging from IT Helpdesk to network support, including a software rollout contract in London.

Film and Television

Education

2004	<i>Queensland school of film and Television (1 year full time)</i> <ul style="list-style-type: none">- Sound field and studio,- Camera Operation film and video- Lighting for Film and Television
2007	<i>Royal Melbourne Institute of Technology (1 year full time)</i> <i>Certificate III in Audio Visual technology (not yet complete)</i> This is a very hands on technical course, some of the more relevant subjects I have completed include; <ul style="list-style-type: none">- Coordinate Technical Operations- Operate Sound Mixing Console- Create, Manipulate & Incorporate 2D Graphics- Install, Align & Test Sound Equipment- Repair AV Equipment, Test & Modify AV Equipment- Prepare, Install & Monitor Lighting Equipment- Operate and coordinate in a Multicamera Environment

Experience

2004-2006

Eco –TV Co-Producer/Director and Technical Support : This project was a self funded initiative to document all the political groups around Australia, each year we produced several short films that were played to a live audience in a variety show format. This event was filmed and used to produce the DVD which was released free of charge around Australia.

2005

Video Voice Mentor: I worked on two Youth projects designed to inspire and teach young children from marginalized backgrounds to use Video as an expression we held week long workshops and taught the basics of camera operation and editing.

2005

Bridges for the ages assistant editor and operator: this was a government funded project aimed at bridging the gap between old and young using video as a catalyst. As well as camera and sound operation I got to work alongside an established editor who was previously the editor for the Jimi Hendrix foundation.

2006

Music Video: Directed Shot edited: The Narcotics it was shot on Super 8 film in Brisbane Australia. (<http://www.youtube.com/watch?v=n8hH0AbDhns>)

2006

Boom Microphone operator for a comedy series called Our Melbourne, screened on public access television channel 31.

2007

Music Video: Directed Shot edited: Dead Riot, the video was shot on green screen and included 2D animations.
